Inspired by these websites

https://studiors.be
https://grail-app.com
https://inherited.band
https://www.silviamalavasi.com

revolving on its own axis
(https://studiors.be)

the r animation style

animate like - (https://www.joinswsh.com)
little bit bounce at the transition

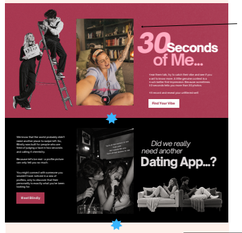

these are dummy app screens

exact same animation entry and exit style - https://grail-app.com

exact same animation - https://inherited.band

exact same animation but make it in straight line from left to right - https://grail-app.com

exact same animation entry and exit style - https://grail-app.com
